**PLAINTIFFS' SIXTH AMENDED RESPONSES TO  
REQUEST FOR DISCLOSURES AND EXPERT WITNESS DESIGNATION**

1. 194.2(a) The correct names of the parties to the lawsuit:

**RESPONSE:**

Linda Faust  
Donnie Faust

2. 194.2(b) The name, address, and telephone number of any potential parties;

**RESPONSE:**

At the time of Plaintiffs' Response to this Request for Disclosure, no potential parties not already named to the underlying lawsuit are known by Plaintiffs and, as such, Plaintiffs cannot provide the name, address or telephone number of any additional parties at this time.

3. 194.2(c) The legal theories and, in general, the factual bases of the responding party's claims or defenses.

**RESPONSE:**

This suit has become necessary as the result of personal injuries suffered by Plaintiffs as result of the wrongful acts and failures to act of Defendant are set forth hereinafter. Defendant in interest has operated a centralized tie treatment plant in Somerville, Texas since the late 19<sup>th</sup> Century. The plant has conducted operations including the pressure treating of railroad cross ties, poles, pilings, and other wood products with creosote, pentachlorophenol, and arsenic pentoxide, as well as other chemicals. The chemicals used by Defendant in their operations contain substances known to be toxic to humans, including known human carcinogens.

As a result of their operations, Defendant has caused the ground water of the City of Somerville to become contaminated with the following chemicals: acenaphthalene, acenaphthene, anthracene, benz (a) anthracene, benzene, benzo (a) pyrene, benzo (g, h, i) pyrene, benzo (b) fluoranthene, chloroform, chrysene, di-n-butyl phthalate, fluoranthene, fluorine, indeno-(1,2,3-cd) pyrene, methylene chloride, naphthalene, phenanthrene, pyrene, toluene, trichlorofluoromethane, bis(2-Ethylhexyl) phthalate, arsenic, barium, beryllium, cadmium, copper, nickel, and selenium.

Furthermore, Defendant through its operations has caused the dispersal into the air and into the soil of Somerville, Texas a number of hazardous chemicals, including but not limited to beryllium, cadmium, chromium, cyanide, lead, and mercury.

Please refer to Plaintiffs' Seventh Amended Petition.

4. 194.2(d) Please state the amount and any method of calculating economic damages.

RESPONSE:

*What is  
amt?*

The calculation of Plaintiffs' economic damages are set forth as follows: Plaintiffs will be asking the jury to award them medical expenses in the past which will be calculated by totaling the medical bills received from all health care practitioners and facilities for treatment rendered to Plaintiffs as a result of the incident which is the basis of this suit; Plaintiffs will additionally be asking for recovery of future medical expenses which will be calculated based on the testimony of Plaintiffs' health care providers evidencing the future medical care reasonably necessary as a result of the injuries Plaintiffs sustained.

*What is  
amt?*

Plaintiffs Linda Faust will be asking for compensation of the lost wages she sustained in the past as a result of the incident which makes the basis of the suit. This figure is calculated by taking Plaintiff Linda Faust's average salaries prior to this accident and calculating the lost time from work based on her salaries prior to the accident and asking the jury to compensate her for lost wages in the past.

Plaintiff Linda Faust will request this jury to compensate her for future lost wages the calculation of which will be determined by the number of hours and the types of jobs Plaintiff Linda Faust will not be able to do as they did prior to this accident and will thus be asking compensation for their diminished working capacity based upon her decreased abilities to work.

Further, Plaintiffs will be asking for compensation for pain and suffering in the past and pain and suffering in the future, mental anguish in the past, mental anguish in the future, physical impairment in the past, physical impairment in the future, past loss of society and companionship; the method of calculating these damages are more subjective in nature and will be presented to the jury for their consideration and awarding of damages based upon their evaluation of the evidence presented at the trial of this matter.

5. 194.2(e) Please provide the name, address and telephone number of persons having

knowledge of relevant facts, and a brief statement of each identified person's connection with the case.

6. 194.2(f) Please provide, for any testifying expert:
1. The expert's name, address and telephone number;
  2. The subject matter on which the expert will testify;
  3. The general substance of the expert's mental impressions and opinions and a brief summary of the basis for them, or if you have not retained or employed the expert, or if the expert is not otherwise subject to your control, documents reflecting such information;
  4. If the expert is retained by, employed by, or otherwise subject to your control, please state and provide copies of:
    - (A) all documents, tangible things, reports, models, or data compilations that have been provided to, reviewed by, or prepared by or for the expert in anticipation of this expert's testimony; and
    - (B) the expert's current resume and bibliography.

**RESPONSE:**

Plaintiff hereby incorporates by reference all persons and entities not listed below who are identified in disclosures and expert designations by all parties to this case.

Kenneth G. McCain  
7670 Woodway, Suite 171  
Houston, Texas 77063  
713/626-0144  
713/334-1122 fax

Dr. McCain is an economic expert who will testify as to past lost earnings of Linda Faust. His testimony will also include opinions regarding the Plaintiffs Faust's potential loss of earning capacity. Dr. McCain considers wage growth, real interest rate with safest investment, inflation as a constant, work-life expectancy, the Plaintiff Faust's base, appropriate discount rate and the applicability of any benefits and medical expenses. Dr. McCain will also testify regarding the network of ATSF and BNSF and any and all issues regarding the economic viability of the defendant railroad or its predecessors in interest.

Dr. McCain has or will be provided the following documents:

- 1) Plaintiff's Income Tax Returns; and
- 2) Plaintiff's Social Security Earnings Report;
- 3) Completed Questionnaire;
- 4) BNSF/ATSF Income Sheets;
- 5) BNSF/ATSF Balance Sheets;
- 6) BNSF/ATSF 10ks; and
- 7) Any and all financial documents created by the BNSF/ATSF railroads.

A summary economic analysis will be provided. The summary report lists the documents and data relied upon by Dr. McCain.

Dr. McCain's curriculum vitae and report have been previously produced.

Nicholas Cheremisinoff, Ph.D.  
48 Wexford Ct.  
Charles Town, WV 25414  
304-724-1315 Telephone & fax

Dr. Cheremisinoff is a chemical engineer specializing in hazardous materials handling and environmental management with more than thirty years experience. Dr. Cheremisinoff earned his B.Sc. in chemical engineering from Clarkson College of Technology in Postdam, New York in 1974 and his M.Sc. in chemical engineering from the same academic institution in 1975, and my Ph.D. in chemical engineering from the same academic institution in 1977. After earning his Ph.D. he taught at Alma Meta and then entered into industry. Dr. Cheremisinoff worked for Exxon Corporation between about 1979 and 1992 as a senior technical staff member on product and process designs with emphasis on waste, pollution management and worker safety related issues. From 1992 to present he has been a private consultant to industry and the U.S. and foreign governments, private sector corporations, and to international lending institutions such as the World Bank Organization, and to donor agencies including the U.S. Agency for International Development (USAID), the European Union and the Organization for Economic Co-operation and Development (OECD) as a

technical consultant on responsible waste and environmental management for industry sector activities.

Dr. Cheremisinoff have held academic positions, including adjunct professor at the New Jersey Institute of Technology, Farleigh Dickenson University, and have been invited Lecturer at the Russian and Ukrainian Academies of Sciences and Jordan University of Science and Technology.

Dr. Cheremisinoff authored, co-authored and edited 160 technical books and several hundred state-of-the-art review articles and research papers on responsible waste and pollution management, and worker safety related issues.

Dr. Cheremisinoff am a member of a number of professional organizations including the American Water Works Association, the American Institute of Chemical Engineers, the American Chemical Society and the National Fire Protection Association.

Essentially, Dr. Cheremisinoff has spent decades working with industry stakeholders on responsible waste and pollution management issues, the application of best management practices and technologies that prevent worker and public exposure and the mishandling of toxic and dangerous waste products resulting from industrial pollution. More information on his education, training, experience and publications in environmental and responsible care is contained in his curriculum vitae.

Dr. Cheremisinoff role as an expert in this matter concerns Responsible Care. *Responsible Care* and *Acting Responsibly* are synonymous terms that embody the application of appropriate technologies, standards (Voluntary or Obligatory from Environmental Regulations), practices, and policies that minimize risks of harm to the public from industrial activities. Responsible companies have long recognized that they have an obligation to eliminate or reduce the negative impacts of the environmental aspects of their businesses operations.

Because the defendant's facility has been in operation since 1904, practices and standards applied towards the protection of the public, and the environment have changed. It is unreasonable to compare modern standards of responsible care to practices that were relied upon decades earlier, especially if standards, best practices and technologies were either limited or did not exist. Therefore, his opinions in this matter are based upon his progressive analysis of the practices, policies and technologies relied upon by the defendant to manage its products, the chemicals used to make its products and the subsequent wastes and pollution over different operational periods.

Dr. Cheremisinoff's analysis include a historical reconstruction of the chemical handling and waste management practices and policies covering the earliest period of

operational records (circa 1910) through 1995. This reconstruction includes calculating the types and amounts of chemicals managed, the characteristics, nature, physical and chemical forms of waste byproducts including solid wastes, sludges, liquid wastes and wastewaters, and air emissions from point and area sources from within the Somerville Tie Plant facility. This quantification includes calculation of source terms which other experts will rely upon to perform air dispersion and possibly groundwater plume contamination dispersion analyses.

Dr. Cheremisinoff's analysis and opinions will include an identification of the fate and transport mechanisms that have allowed hazardous wastes and pollution to migrate off site and trespass onto the neighboring community.

Dr. Cheremisinoff's analysis and opinions will include a comparison of the technologies relied upon at different operational periods to readily available (i.e., commercially available) technologies for each operational period. Where possible, he will provide comparable comparisons between costs of treatment, identification of technology suppliers, examples of waste management practices at other facilities. Because his background in combustion science and industrial wastewater treatment systems is extensive based on 30 years of industry applied experience, a significant part of his analysis and opinions will focus on these two areas.

Dr. Cheremisinoff's analysis and opinions will include an assessment of the degree to which the defendant met or attempted to meet both voluntary industry standards and regulatory obligations.

Because his training, education and work experiences focus on chemicals and hazardous materials, he will comment on the toxic and chemical natures of creosote, pentachlorophenol, chromated copper arsenic, naphtha and the major chemical constituents in each of these chemicals, but shall not offer any opinions on health-related claims made by the Plaintiffs in this matter.

The following is a list of references that he has consulted in this matter up to this point in time. Dr. Cheremisinoff intends to consult additional reference materials before providing my written opinions in this matter.

Dr. Dahlgren will review the scientific literature and his own research to determine the diseases and health problems that can occur from exposure of employees and neighboring residents to the chemicals used at the wood treatment plant in Somerville, Texas. He will provide expert testimony on the known toxicity of creosote, pentachlorophenol and their ingredients:

- 1) Polycyclic aromatic hydrocarbons such as benzo(a)pyrene, BaP;
- 2) Benzene, naphthalene, and other volatile organic hydrocarbons;
- 3) Polychlorinated dibenzo dioxins such as Hexa-chlorinated dibenzo dioxin; and
- 4) Creosote extenders such as:
  - a) Organic solvents like naphtha, aromatic and aliphatic hydrocarbons;
  - b) Styrene bottoms and other "waste" solvents; and
  - c) Recycled chlorinated solvents.

Dr. Dahlgren will provide expert testimony on the toxic effect of burning treated wood in the boilers which gives rise to various particulates, oxides of nitrogen & sulfur and heavy metals present in the smoke, fume and vapor. The ingredients of the air pollution from the boilers depend on the fuel. A few possibilities are arsenic, chromium, nox, and sox.

Dr. Dahlgren will examine the plaintiffs to determine their individual symptoms, health problems, family, environmental, occupational and social history. Information on confounders such as smoking, drinking, drug use, hobbies, burning treated wood in their fireplaces, eating contaminated food and living in contaminated neighborhoods will be addressed.

Dr. Dahlgren will perform a physical examination and laboratory testing will be performed to determine all objective factors of exposure and health status within the confines of available resources.

In addition, Dr. Dahlgren has been provided the following records:

- 1) Deposition of Samuel Barkley given in *Hightower vs. BNSF*;

Upon completion of the above, Dr. Dahlgren will render an opinion on the relationship, if any, between the exposure to the air, water and soil pollution from the wood treatment plant and the specific health problems of the individual plaintiffs.

A copy of Dr. Dahlgren's curriculum vitae and report have previously been produced. In addition, attached is Dr. Dahlgren's Supplemental report.

Paul Rosenfeld, Ph.D.  
Swape Technical Consultation  
201 Wilshire Boulevard, 2<sup>nd</sup> Floor  
Santa Monica, CA 90401  
310/795-2335

Dr. Rosenfeld is an air emission and dispersion modeling expert who will render opinions in this case regarding the impact of toxic chemical air emissions from the Somerville wood treating facility on the nearby community. The analysis will employ an air dispersion computer model and modeling protocols consistent with USEPA guidelines and credible air pollution analysis techniques.

Dr. Rosenfeld will develop an emission inventory defining the kinds and quantities of air emissions from sources at the facility for the specific years of interest. The emission inventory will be based on emission information found in facility-related documents as detailed below. He will also determine the locations, dimensions, and release characteristics of each emission source. The emission rate and source parameter information will be input into an EPA computer model to determine the historical concentrations of the chemicals of interest at designated locations. Maps will be created showing the impact of those air emissions from the wood treating facility on the community.

Several types of documents will be reviewed in order to gather the information needed to prepare the input to the air dispersion model. Documents related to the Somerville wood treating facility include:

- 1) Current and historical permit applications filed with the TCEQ;
- 2) Correspondence with the TCEQ, the EPA, and other regulatory agencies;
- 3) Stack/source test reports;
- 4) Air monitoring reports;
- 5) Air modeling reports;
- 6) Plot plans and facility equipment diagrams;
- 7) Process flow diagrams;
- 8) Inventory/production data; and
- 9) Facility inspection reports.

In addition, Dr. Rosenfeld may also rely on the following:

- 1) Emission factor publications;
- 2) Emission testing reports at similar facilities;

- 3) General chemistry reference documents;
- 4) Aerial photographs;
- 5) Ground photographs;
- 6) Maps (USGS, others);
- 7) Meteorological data;
- 8) Regulatory agency publications;
- 9) The air pollution technical literature; and
- 10) Severn Trent Laboratories, Inc. Preliminary Data Summary (PCB Attic Dust Data).

Ms. Stegent is a Certified Life Care Planner and a Registered Nurse. Ms. Stegent, based on her knowledge, training, skills, experience, and investigation in this case, will

offer expert opinion testimony regarding the effects of the injury on Plaintiff Linda Faust's day-to-day living requirements, and future medical care and the expenses associated with these needs.

Ms. Stegent has reviewed the following documents:

- 1) Brenham Clinic Association medical records for Linda Faust;
- 2) Tax Returns for the years 1989 - 1998 w/W-2s for Linda Faust;
- 3) Deposition of Linda Faust; and
- 4) Deposition of Donnie Faust.

Raja Khuri, M.D., M. P.H.  
The Occupational Medicine Specialists  
300 West Adams Street, Suite 835  
Chicago, IL 60606  
800-359-1979

Dr. Khur will review the scientific literature and his own research to determine the diseases and health problems that can occur from exposure of employees and neighboring residents to the chemicals used at the wood treatment plant in Sommersville, Texas. He will provide a expert testimony on the known toxicity of creosote, pentachlorophenol and their ingredients:

- 1) Polycyclic aromatic hydrocarbons such as benzo(a)pyrene, BaP;
- 2) Benzene, naphthalene, and other volatile organic hydrocarbons;
- 3) Polychlorinated dibenzo dioxins such as Hexa-chlorinated dibenzo dioxin; and
- 4) Creosote extenders such as:
  - a) Organic solvents like naphtha, aromatic and aliphatic hydrocarbons;
  - b) Styrene bottoms and other "waste" solvents; and
  - c) Recycled chlorinated solvents.

Dr. Khur will provide expert testimony on the toxic effect of burning treated wood in the boilers which gives rise to various particulates, oxides of nitrogen & sulfur and heavy metals present in the smoke, fume and vapor. The ingredients of the air pollution from the boilers depend on the fuel. A few possibilities are arsenic, chromium, nox, and sox.

Dr. Khuri will examine the plaintiffs to determine their individual symptoms, health problems, family, environmental, occupational and social history. Information on confounders such as smoking, drinking, drug use, hobbies, burning treated wood in

their fireplaces, eating contaminated food and living in contaminated neighborhoods will be addressed.

Dr. Khuri will perform a physical examination and laboratory testing will be performed to determine all objective factors of exposure and health status within the confines of available resources.

In addition, Dr. Khuri has been provided the following records:

- 1) Deposition of Samuel Barkley given in *Hightower vs. BNSF*;
- 2) Samuel L. Barkley exhibits 1 - 13;
- 3) Deposition of Don Cleveland given in *Ramirez vs. BNSF*;
- 4) Deposition of James Dahlgren given in *Ramirez vs. BNSF*;

- 2) Deposition of Philip Goad in *Faust vs. BNSF*;
- 3) Deposition of Charles Barkley in *Faust vs. BNSF*; and
- 4) Deposition of Mark Stehly in *Faust vs. BNSF*.

Upon completion of the above, Dr. Khuri will render an opinion on the relationship, if any, between the exposure to the air, water and soil pollution from the wood treatment plant and the specific health problems of the individual plaintiffs.

A copy of Dr. Khuri's curriculum vitae has previously been produced.

TREATING PHYSICIANS & HEALTH CARE PROVIDERS

Plaintiff incorporates herein all of Plaintiff's treating physicians and healthcare providers identified in section (d) of this supplemental disclosure. The above physical or mental healthcare providers and/or their respective custodian of records have information which bears significantly on this case and may be called to testify and/or produce their records. Such testimony or records may reflect facts and opinions concerning: the Plaintiff's past, present and/or future medical condition; the courses of treatment that the Plaintiff pursued and/or should have pursued, and/or should pursue; statements made for purposes of medical diagnosis or treatment and describing medical history, or past or present symptoms, pain, or sensations, or the inception or general character of the cause or external source thereof insofar as reasonably pertinent to diagnosis or treatment; other memoranda, reports, records, or data compilations of acts, events, conditions, opinions, or diagnoses; complaints; observations; examinations; tests; diagnoses and/or treatments and the results thereof; permanency; causal connections; prognosis; and/or the ability of the Plaintiff to return to work and/or to perform other tasks.

7. 194.2(g) Please identify and provide copies of any discoverable indemnity and insuring agreements.

**RESPONSE:**

None at this time.

8. 194.2(h) Please identify and provide copies of any discoverable settlement agreement.

**RESPONSE:**

None at this time.

Please see the statements of Dennis Krueger, Sr., Antonio Negrete, Hilario Martinez, Robert W. Urbanowsky, Ruddies R. Zwernemann and the depositions of Donald Ray Hightower and tie plant superintendents Welch and Barkley, previously produced by Plaintiffs.

10. 194.2(j) In a suit alleging physical or mental injury and damages from the occurrence that is the subject of the case, all medical records and bills that are reasonably related to the injuries or damages asserted or, in lieu thereof, an authorization permitting the disclosure of such medical records and bills.

**RESPONSE:**

Plaintiffs have previously provided Defendant with HIPPA authorizations.

11. 194.2(k) In a suit alleging physical or mental injury and damages from the occurrence that is the subject of the case, all medical records and bills obtained by the responding party by virtue of an authorization furnished by the requesting party.
